Moscow Autumn Perovskite Photovoltaics International Conference (MAPPIC-2019)

Dear Colleagues,

the Organizing Committee cordially invites you to participate in first Moscow Autumn Perovskite Photovoltaic International Conference (MAPPIC-2019) will be held on **14-15 October 2019**.

Hybrid perovskite materials have drawn the attention of scientific society in the last decade due to their outstanding physical properties and huge potential for application in solar cells, light emitting diodes, sensors and lasing materials.

This MAPPIC-Conference is the first one in a series of annual meetings to be held in Russia organized by Lomonosov Moscow State University ([Laboratory of New Materials for Solar Energetics](#)). This event aims to promote connections between industry, research institutes and students working in field of modern photovoltaic and light-emitting materials. We encourage young scientists and students involved in modern materials science and photovoltaic both to share their research and to learn from others.

Important Dates

Abstract submission start	05th August
Oral abstracts submission deadline	15th September
Final Scientific Program announcement	20th September
Poster abstracts submission deadline	30th September

The participation is free of charge!

To register, **fill in the registration form** on our website mappic.nmse-lab.ru

For visa issues – contact us ASAP via conference@nmse-lab.ru

Scientific Program

Topics:

- Chemistry and physics of hybrid perovskites
- Perovskite scale-up and manufacturing
- Stability of perovskite solar cells and light-emitting devices
- Environmentally friendly perovskite materials and technologies

Invited Speakers:

[Aldo Di Carlo](#)
Tor Vergata University,
Italy; MISIS, Russia

[Sergey Ponomarenko](#)
ISPM RAS, Russia

[Eugene Goodilin](#)
Faculty of Materials
Science, MSU, Russia

[Said Kazaoui](#), AIST,
Research Center for
Photovoltaics, Japan

[Pavel Troshin](#),
Skolkovo Institute of
Science and
Technology, Russia

[Eugene Terukov](#) R&D
Center TFTE, Russia

[Andrey Shevelkov](#)
Department of
Chemistry, MSU,
Russia

[Alexey Tarasov](#),
Faculty of Materials
Science, MSU, Russia

[Ivan Turkevich](#), AIST,
Sensing Systems
Research Center
(SSRC), Japan

[Dmitry Parashyuk](#),
Faculty of Physics of
MSU, Russia

Supported by

The conference is supported by RSF project №19-73-30022
